Installation notes: (Any useful information about install, charger upgrades or inverter installs.)

Upload Submission Date:

Email:

To activate the product's 5-year warranty, please complete the above form and upload the required information to: www.lithiumpro.co.uk/warranty-activation

WHAT YOU'LL NEED TO ACTIVATE THE WARRANTY:

- Vehicle installation details.
- Download the LithiumPro SMARTIQ BMS APP using the QR code.
- Screenshots from the LithiumPro SMARTIQ BMS App.
- Installation images showing battery area and fusing.

We recommend printing the INSTALLATION SHEET above to complete during installation—this acts as a prompt for the installer and makes the online submission quick and straightforward.

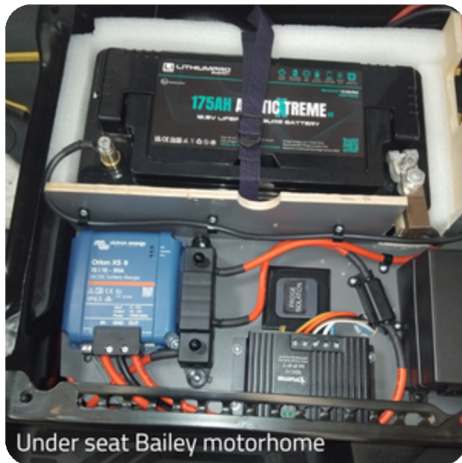

Once submitted:

- A Warranty Certificate will be emailed to your customer
- A copy of the installation details will be sent to you for your records
- This information also allows us to quickly verify installation details and provide faster support if needed.

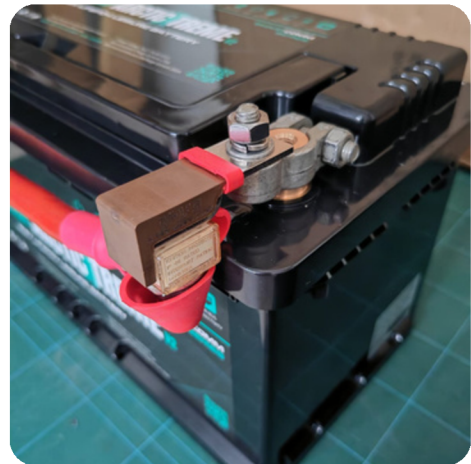

Important: Warranty activation is only valid once information has been fully completed and submitted online.
